

# English Pronunciation Practice:

## My Pronunciation Test

/heləʊ/ 😊

*Are you Ready to Take the Challenge ?*

Pronunciation plays a key role in our communication skills, so it's important you get lots of English pronunciation practice.

In addition, if you are taking an exam like IELTS Speaking, **pronunciation counts for 25% of your score**. So, it's worth spending time working on your pronunciation.

This ***Pronunciation Test*** is a great way to do that.

When I did this pronunciation test with some students, only 10% of them got all the phrases right!

How will you do?

**Let's find out!**

# How The Test Works

I am going to give you **10 phrases** with some challenging words.

1. Look at the phrase
2. Read it aloud (*pronouncing each word the best you can*)
3. Listen and check by listening to me (*listen in the video below*)
4. Repeat the phrase

This way you can test yourself, correct yourself and also practice good pronunciation.

In addition to reading the sentences below, I recommend you watch the video above.

**[Click to Watch the Video Recording of This Pronunciation Test](#)**
